TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java

Technologies/Frameworks: React.js, Next.js, Node.js, Express.js, Fastify, GraphQL.

Databases: MongoDB, MySQL, Redis

Tools/Platform: Git, Docker (Basics), AWS (Basics)

PROJECTS

URL Shortener Backend ⬈ | Node.js, Fastify, Redis, MongoDB, Cloudinary **03 2025**

- Developed a high-performance URL shortener using Fastify, Redis, and MongoDB, ensuring speed and scalability. Integrated rate limiting with Redis to prevent abuse, added QR code generation with Cloudinary storage for easy sharing, and designed an analytics system to track click count, first/last access time, and device types.

Portfolio Website ⬈ | React.js, Framer Motion, Tailwind CSS **07 2024**

- Designed and developed a user-friendly, responsive portfolio website to showcase my work and projects.

eCommerce website ⬈ | React.js, Node.js, Express.js, MongoDB, Cloudinary **05 2024**

- Developed a responsive MERN stack e-commerce application that is integrated with Cloudinary for image storage and Razorpay for payment processing.

Online Diet Application ⬈ | React.js, Node.js, Express.js, MySQL **02 2024**

- Developed a user-friendly dietary tracking application utilizing React, designed to monitor daily caloric intake online. The application features a User-friendly and straightforward interface to enhance usability. .

Courses

AWS Cloud Practitioner Course – Udemy ⬈ **03 2025**

- Covers AWS core services, IAM, EC2, S3, Databases, networking, and security basics.
